

A CAG Initiative

stopppwatch

Educating & Informing Stakeholders on Energy,
Environment, and Thermal Power Plants

Dear All,

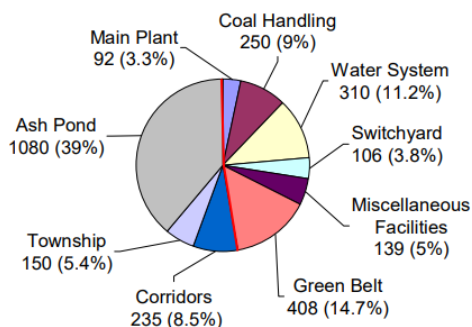

Greetings from CAG!

Citizen consumer and civic Action Group (CAG) is a 32-year-old, Chennai based, non-profit, non-political organization that protects rights of citizens in consumer, civic and environmental issues. We also promote transparency and accountability and harness new technologies to strengthen governance.

CAG is spearheading an initiative to educate local communities on the Environmental Impact Assessment (EIA) process, with a specific focus on thermal power plants. In addition to that CAG aims to spread awareness about the monitoring and compliance process of thermal power plants, to achieve better governance which provides a cleaner environment.

Stop(p)watch aims to educate and inform stakeholders on issues and happenings in environment and thermal power plant in India and around the world.

Editorial

Land requirement for thermal power plant

Use of land at the proposed site of a thermal power plant is a prime concern to communities living in the vicinity and the project proponent.
